JEAN ELIZABETH

A large, incurved variety that matures November 20th and later. The color is pure white, with a slight creamy cast. Very strong upright growth, and will produce two six-inch flowers to the plant. Its compact, incurved form makes it an ideal variety for commercial growing. Fine stem with foliage well up to the bloom. Take terminal bud.

Rooted Cuttings

\$2.50 per 10; \$15.00 per 100; \$125.00 per 1000
